Adair Village Mission Statement

To build a safe, attractive, vibrant environment with a welcoming sense of community.

A HEARTFELT THANK YOU FOR SUPPORTING OUR FUTURE GROWTH

The City of Adair Village would like to extend our sincere gratitude to Representative Sara Finger McDonald for her incredible work in securing vital funding for our wastewater plant. Her efforts were instrumental in the success of a \$4 million legislative bill, which will directly support the expansion of our wastewater system.

We are also deeply thankful to Representative Elmer, who championed this bill alongside Rep. McDonald and helped move it through the legislative process. Their combined support ensures that our city can continue to grow and thrive.

With this funding, Adair Village will be able to expand the capacity of our current wastewater plant, opening the door for the development of several hundred new homes in the coming years. This is a major step forward in addressing local housing needs and supporting the long-term sustainability of our community.

This achievement would not have been possible without the collaborative efforts of Benton County, the State's Regional Solutions Team, and all our partners who stood with us throughout this process. We are incredibly grateful for the dedication and teamwork that made this milestone possible.

Looking ahead, the city will continue working during the next legislative session to secure additional funding that will help us complete a full replacement of the wastewater plant—ensuring Adair Village remains ready to meet the needs of the future.

Thank you again to everyone who played a part in making this a reality. Your support is helping build the foundation for generations to come.
