## STORMWATER EDUCATION

May is American Wetlands Month. If you have walked around our City, you have probably noticed several wetlands with beautiful vegetation and habitat for wildlife. More importantly, these wetlands are like the “kidneys” of a watershed, helping to remove pollutants from stormwater that flows through. This amazing function of wetlands helps remove nutrients, sediment, pesticides, and metals that might otherwise get washed all the way into the Willamette River. Let us all avoid damaging our local wetlands so they can keep serving this important purpose!

## (Re)-Introducing Camp Adair, Adair Air Force Station, Naval Hospital Corvallis, Adair Village I, Adair Village II and Adair Living History (ALH).

It's been a long two years and ALH is eager to get back to the business of historic preservation and education! Meet members of the board and see some artifacts from our history. Hear tales of when Camp Adair was Oregon's second largest city in the 1940s. Find out what the Adair Air Force Station used the big, gray "Block House" for in the 50s and 60s. There is so much history in the Adair area that we can't put it into one small paragraph!

Join us on Saturday, May 14, 11am – 2 pm  
at 6030 William R Carr Ave. in "The Barracks" \*

For those of you who have wondered over the last ten years just when that building will be completed, and when the Adair History Interpretive Center will be done, we have some great news! We hope to see many of you there.

\* 6030 William R. Carr Avenue is the Adair Village City Hall, where parking is available. The barracks building is a short walk north from City Hall.
