BUILD A “GO” BAG

Are you ready for an emergency? Setting up a go bag can be a good first step in becoming prepared for a disaster that would necessitate a quick evacuation from your home. Here is what you should have in your go bag:

- Water (one gallon per person per day for several days, for drinking and sanitation)
- Food (at least a several-day supply of non-perishable food)
- Battery-powered or hand crank radio and a NOAA Weather Radio with tone alert
- Flashlight
- First aid kit
- Extra batteries
- Whistle (to signal for help)
- Dust mask (to help filter contaminated air)
- Plastic sheeting and duct tape (to shelter in place)
- Moist towelettes, garbage bags and plastic ties (for personal sanitation)
- Wrench or pliers (to turn off utilities)
- Manual can opener (for food)
- Local maps
- Cell phone with chargers and a backup battery

Adair has an active CERT (Community Emergency Response Team) program with a committed team of people who meet monthly to continue training exercises. We need more people to join our team. Feel free to come and watch us train from 6:00 - 8:00 p.m. on the third Wednesday of each month (except during Summer) at City Hall to get a better idea of what we do.

Also, come visit the CERT booth on Founders Day to learn more about go bags and participate in a fun activity to earn a free MRE (Meal Ready to Eat).
