Adair Village Mission Statement

To build a safe, attractive, vibrant environment with a welcoming sense of community.

FRIENDS OF ADAIR VILLAGE THANKS SUPPORTERS

Friends of Adair Village would like to thank Altrusa International of Corvallis, Benton County Cultural Coalition, the City of Adair Village, and Honeybrine Catering for their support of our newly formed nonprofit organization. Without their financial support we would not have been able to bring the summer youth program and other community events for Adair Village to fruition. Additionally, Corvallis School District provided lunches to the children 18 years and under through the USDA Summer Lunch program. Finally, we are deeply grateful to everyone who volunteered their time and talents to help us realize our dream of bringing our village together in the spirit of community. Below is some of the feedback we received about the summer program.

“Our small community is special, and I appreciate how the summer program is a part of building our connection and community, among the kids and parents too. I appreciate the opportunity for creative art projects, interesting and educational field trips, and fun active games. The volunteers who make the program happen are generous with their time and energy to show their love for the children and our little town. Thank you to all of them!”

~ Bryanna Sarnowski, parent and resident of Adair Village

“My children absolutely loved going down there on Tuesdays and Thursdays for all your guys’ arts and crafts and for the lunches every day. They looked forward to it and it brought our family together. We had a great time.”

~ Sabrina Holdorf, parent and resident of Adair Village

“Dear Adair Village Kids Program,

Thank you for all you do for the community. Here is an appreciation box of pears from the Medford Pear Farm in the Rogue Valley. This farm is used to feed thousands throughout the year who are in need. Again, thanks for your efforts to help those in vulnerable life situations.

Our community is better because of your service, and it does not go unnoticed.

~ Teresa Nielson, Communication Council Director

The Church of Jesus Christ of Latter-Day Saints.”

Thank you to all of the families and residents of Adair Village, for participating in our events and enriching our lives with your smiles and laughter. **If you are interested in volunteering with Friends of Adair Village or making a donation to help us continue to offer activities for the citizens of Adair, please contact us at friendsofadairv@gmail.com.** We communicate our activities through the Adair Villagers and Calloway Creek Facebook pages and flyers in the monthly water bill. Keep looking for our announcements for future events that our organization and volunteers are bringing to our community!

ANNUAL BACKFLOW INSPECTION FOR ADAIR VILLAGE RESIDENTS

The city has an important update regarding backflow prevention in our community. In compliance with state laws and to ensure the safety and quality of our water supply, the City of Adair Village will be conducting annual backflow inspections on all backflow prevention devices throughout town.

What is a Backflow Prevention Device?

A backflow prevention device is crucial for protecting our water supply from contamination or pollution due to reverse flow. These devices are typically installed where water pipes connect to your property.

Why Are Inspections Necessary?

The State of Oregon mandates regular inspections of these devices to ensure they are functioning properly and safeguarding our water system. By conducting these inspections, we can prevent potential health hazards and maintain the high quality of water that we all rely on.

Cost and Convenience

To streamline this process and reduce costs for our residents, the city will manage these inspections annually. A charge of \$3.33 will be added to your water bill each month starting with the September 2024 bill (due October 15, 2024). This fee is significantly lower than what it would cost to arrange a private inspection, ensuring compliance with state requirements at a reduced cost to you. This additional fee only applies to residents who have irrigation systems.

What to Expect

The inspections will be conducted by certified professionals who will ensure that all devices meet the required standards. We will provide you with more details regarding the schedule and process in the coming weeks to minimize any inconvenience.

Thank You for Your Cooperation

We appreciate your understanding and cooperation as we work together to maintain the safety and reliability of our community's water supply. If you have any questions or concerns, please do not hesitate to contact our office at 541-745-5507.

TEXTMYGOV UPDATE

The city's new TextMyGov service has over 560 "opt-ins" (phone numbers of residents/home owners who will be able to receive important notifications regarding either water service, emergencies, or city events). We have not yet needed to utilize the system but are excited that so many of you have opted in. Should the city need to communicate with you, the TextMyGov tool will allow us to better serve you by letting you know what the city is doing or what you can expect. You are welcome to opt-in more phone numbers as you see fit and please remember that you can choose to opt out at any time by texting **STOP**. For more information, please visit our website at www.adairvillage.org.
