

## UPCOMING EVENTS

### City Council Meetings

Tuesday, Nov. 5<sup>th</sup> at 6:00 p.m.,  
City Hall

Tuesday, Dec. 3<sup>rd</sup> at 6:00 p.m.,  
City Hall

### Planning Commission

No scheduled meeting this month

### Adair Living History

Call (541) 231-7838 for meeting information and/or volunteer opportunities

### Inside this Issue:

- Leaf Collection and Street Sweeping
- Wastewater system Improvement Project Update
- Weatherization Education
- Stormwater Education

### Adair Village Mission Statement

*To build a safe, attractive, vibrant environment with a welcoming sense of community.*

## ADAIR VILLAGE 2024 LEAF COLLECTION AND STREET SWEEPING SCHEDULE

The 2024 leaf pick up days are scheduled for the follow Mondays:

Oct. 28  
Nov. 11  
Nov. 25  
Dec. 9  
Dec. 23

Please rake leaves into the street just before the collection dates. Be sure that you are not blocking bike lanes, storm drains, or driveways.

Street sweeping will happen the day after leaf pick up on the following Tuesdays:

Oct. 29  
Nov. 26  
Dec. 10

Please move vehicles off the streets on both leaf collection and street sweeping days. Parking is available at City Hall.

## WASTEWATER SYSTEM IMPROVEMENT PROJECT UPDATE

We're excited to announce that Phase One of our wastewater system intake project is officially complete! This \$2.7 million endeavor, which spanned over the last two years, is a significant achievement for Adair Village, enhancing the city's wastewater capacity to meet the needs of our growing community and bringing us into compliance with the Oregon Department of Environmental Quality (DEQ).

The expanded capacity will provide long-term benefits to our city, ensuring that our wastewater infrastructure can support current and future residents. We understand that projects like these come with challenges, and we are deeply grateful to our residents for their patience, understanding, and financial commitment throughout this process. Your continued support has been vital to making this improvement a reality.

Thank you once again to the community for investing in a sustainable future for Adair Village.

## WEATHERIZATION EDUCATION

Many of the homes in Adair's two loops have water pipes running through the attic and they are often not insulated. It is worth your time and money to have a professional look at the system in your attic and make sure the pipes are insulated. Every Adair home can help protect their pipes with these tips:

- **Turn on the taps:** Let the water drip in extreme cold. Even if the water does freeze, this will relieve some of the water pressure and keep the pipe from bursting.
- **Open cabinets:** Leave the cabinets open under your kitchen and bathroom sinks. This keeps warm air circulating around your pipes.
- **Wrap the pipes:** If your pipes are in areas that don't get warm air, consider insulating them with foam rubber or fiberglass sleeves from your local hardware store, or call a plumber to do it for you.
- **Seal the gaps:** Cracks in your home's out-side walls or foundation should be caulked to keep cold air away from your pipes.
- **Drain your pipes:** If you're taking a trip in the winter, consider draining your pipes to prevent them from bursting. Shut off the main valve and then turn on all the taps (hot and cold) and let the water run until the pipes are emptied.

## STORMWATER EDUCATION

As the rainy season starts, remember that the stormwater runoff eventually ends up in our rivers. Let us try our best to protect the health of the rivers by preventing pollution from ending up in our stormwater runoff. Here are some easy ways you can do that in your own home:

- Use fertilizers sparingly and sweep up driveways, sidewalks, and gutters so that leaves and litter do not enter the storm drain.
- Check your car for leaks and recycle your motor oil.
- Never dump anything down the storm drain or into a stream.
- Pick up after your pet. Pet waste contains bacteria and nutrients that can harm the health of our nearby rivers.
