Inside this Issue:

- **Spices & Slices**
- **Stormwater Education**
- **Preparing for Freezing Weather**

Adair Village Mission Statement

*To build a safe, attractive,
vibrant environment with a
welcoming sense of community.*

NEW RESTAURANT OPEN

Please join us in welcoming Spices & Slices to Adair Village located next to the Village Foodmart. They are an Indo-Chinese style restaurant/ pizzeria open Monday –Thursday 11 a.m. to 9 p.m. and Friday-Saturday 11 a.m. to 10 p.m. They will be available for delivery through apps like Doordash or Uber Eats. We've included a few menu options down below, but make sure to stop by and check out the full menu, with flavorful options for everyone. You can also check out their website at spicesnslices.com.

Snacks

- **Masala Fries**
Crispy golden fries tossed in a flavorful blend of Indian spices, offering the perfect balance of heat and zest

Wings

- **Tamarind BBQ Wings**
Juicy, tender chicken wings coated in a smoky, tangy barbecue sauce, grilled to perfection for a finger-licking good flavor

Sandwiches

- **Mumbai Crunchwich**
A classic street-style sandwiches offers a medley of sliced & spiced potatoes, zesty mint-coriander chutney, sliced veggies, and a sprinkle of sev, all toasted to golden perfection
- **Spicy Masala Grill-Up**
A sizzling fusion of gooey cheese, tangy masala-spiced veggies, and a hint of mint-coriander chutney, grilled between buttery slices of bread

Pizza

- **Dragon Pepper Pizza**
A vibrant pizza topped with a colorful trio of bell peppers– red, yellow, and green– layered over a bed of mozzarella, chicken, and tomato sauce
- **Tandoori Chicken Pizza**
A bold fusion dish featuring juicy tandoori-spiced chicken pieces, vibrant bell peppers, red onions, on a perfectly crisp crust, topped with melted mozzarella and a sprinkle of cilantro

Noodles

- **Hakka Noodles**
A savory Indo-Chinese favorite with stir-fried noodles tossed in a flavorful soy-based sauce, mixed with crunchy vegetables. Garnished with green onions for a delightful finishing touch

STORMWATER EDUCATION

As the rainy season starts, remember that the storm water runoff eventually ends up in our rivers. Let's try our best to protect the health of the rivers by preventing pollution from ending up in our storm water runoff. Here are some easy ways you can do that in your own home:

- Use fertilizers sparingly and sweep up driveways, sidewalks, and gutters so that leaves and litter don't enter the storm drain.
- Check your car for leaks and recycle your motor oil.
- Never dump anything down the storm drain or into a stream.

Pick up after your pet.

To see the City's plan for decreasing pollution to nearby waterbodies, please read the TMDL Implementation Matrix in the Stormwater section of the City's website at: <http://adairvillage.org/departments-services/public-works/storm-water/>.

PREPARING FOR FREEZING WEATHER

If you will be out of town for an extended period during the winter months and would like to have your water service turned off in case of a freeze, please contact City Hall at 541-745-5507. Many of the homes in the two loops have water pipes running through the attic and they are often not insulated. It is worth your time and money to have a professional look at the system in your attic and make sure the pipes are insulated. With winter comes the threat of damage to your home from snow, ice, and freezing. Did you know that homeowners file five times as many claims for damage due to burst pipes than claims for fire damage? You can help protect your pipes with these tips:

- **Turn on the taps:** Let the water drip in extreme cold. Even if the water does freeze, this will relieve some of the water pressure and keep the pipe from bursting.
- **Open cabinets:** Leave the cabinets open under your kitchen and bathroom sinks. This keeps warm air circulating around your pipes.
- **Wrap the pipes:** If your pipes are in areas that don't get warm air, consider insulating them with foam rubber or fiber glass sleeves from your local hardware store, or call a plumber to do it for you.
- **Seal the gaps:** Cracks in your home's outside walls or foundation should be caulked to keep cold air away from your pipes.
- **Drain your pipes:** If you're taking a trip in the winter, consider draining your pipes to prevent them from bursting. Shut off the main valve and then turn on all the taps (hot and cold) and let the water run until the pipes are emptied.
