SUMMER TRAIL PROJECTS IN ADAIR VILLAGE

This summer, the city of Adair Village is excited to focus on improving and expanding some of our local trails! One of the main projects will be the construction of a new natural path trail in Calloway Creek, located at the south end of town. You can see this trail marked in green on Exhibit A on the back of the city map. This new scenic trail is expected to be completed and ready for residents to enjoy by the end of the summer.

In addition, we're working on two inner-community trails:

- A historical walk path near City Hall, which will highlight key moments from Adair Village's past.
- A potential new extension from Ryals up to Vandenberg, for which we'll be in conversation with Santiam Christian to explore possibilities.

Be on the lookout for updates and progress throughout the summer. We hope these projects make it easier and more enjoyable for everyone to get out and explore our beautiful community!
